

CROP MANAGEMENT  
PARTNERS LLP

# The CMP Soilwise Academy

'Developing our understanding and skills  
in advancing agricultural techniques'

## Soil Microbiology Workshop

Tuesday 7<sup>th</sup> November 09:00 – 12:30

Forest of Bere Estate, Up Somborne, Andover, Hants. SO20 6RL

There's much more to your soil than Earthworms and Organic matter.

Simon Parfrey of SoilBioLab at Andover will introduce us to the key microorganisms inhabiting your soil.

We will learn the benefits to our businesses of a biologically active soil and have a look at case studies from farms in our region that validate the benefits of a fully functioning Soil Food Web.

[www.soilbiolab.co.uk](http://www.soilbiolab.co.uk)

Also **Save the date** Friday 1<sup>st</sup> December 2023 for the second in our winter series of Soilwise Academy meetings where we will look at how we can link soil and crop nutrition through the season

To reserve your place, please email [service@cropmanagement.co.uk](mailto:service@cropmanagement.co.uk) or phone the CMP Office on 01730 710800

Places are limited so please book early
